

## Q-LINK BENEFITS:

- More Energy
- Less Stress
- Greater Focus
- Reduced Effects from EMF (electromagnetic fields)
- Enhanced Stamina & Endurance
- Improved Well-Being

## WHAT IS Q-LINK SRT?

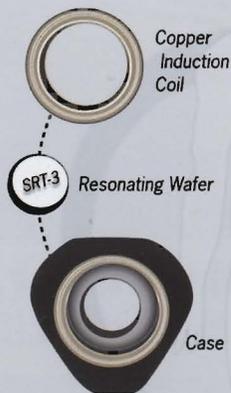

Q-Link® SRT-3™ products represent a new class of personal performance equipment designed to optimize the function of the body. When worn, Q-Link products balance and strengthen the body's energetic system or "Biofield", helping you perform at peak physical, mental and emotional capacity.

## WHAT IS A BIOFIELD?

The Biofield, as it is called by the US National Institutes of Health (NIH), is an ensemble or matrix of different energies that extend outward from each person's body. A strong Biofield not only supports and nourishes the body, but also strengthens a person's ability to cope with stress.

## HOW THE Q-LINK WORKS

At the core of every Q-Link product is Sympathetic Resonance Technology™ (SRT). This proprietary technology is comprised of a copper induction coil and a resonating crystalline wafer embedded with life-supporting frequencies. The copper induction coil defines the frequency strength and broadcast range. Q-Link's technology resonates with your energetic system or Biofield. Working like a series of master tuning forks, Q-Link constantly tunes the body's natural life-supporting frequencies.

*"by reducing the noise in any energy field, this technology strengthens and purifies the body's own energies."*

# Backed by a Quarter-Century of Frontier Research

Q-Link SRT™ is the result of more than 20 years of extensive R&D at top scientific institutions including Stanford University, Imperial College London and University of Vienna. Research published in medical journals includes EEG brain wave studies, cellular studies on blood, stress tolerance of human tissue cells.

## Q-LINK SRT-3

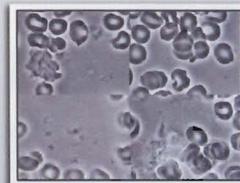

Feel Calm, Strong and Centered despite your stressful, fast-paced, high-tech life.

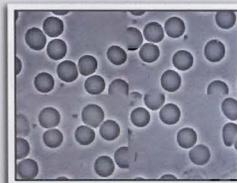

## WHAT ARE THE EFFECTS OF Q-LINK ON THE BLOOD?

In two separate live blood microscopy studies, results suggest that the Q-Link pendant helps to mediate the effects of stress by enhancing both the blood terrain and the integrity of human blood cells.

Before Q-Link

After Q-Link

*"After wearing the Q-Link for only 72 hours, every test showed a very significant improvement in the quality of their blood. The blood of the test group wearing Q-Link showed a normal blood profile that I see in only 1 out of every 10,000 people. In my scientific opinion anybody whose blood is improved to this degree will significantly improve their performance and the quality of their life."*

**Dr. Robert Young, PhD, Microbiologist**

Q-Link SRT Products are powered by your body's bioenergetic field. They never need to be recharged.

Wear the Q-Link Pendant around your neck, positioned at the center of your chest, inside or outside your clothing. Use the cord provided or any other type of necklace. Q-Link Bracelets are an alternative to Pendants and offer the same benefits. All Q-Link wearable products are designed to be waterproof, lightweight, stylish and durable so they may be enjoyed 24/7 and compliment a variety of lifestyles.

*"The SRT in the Q-Link Pendant protects against stress from ... EM fields and possibly also chemical toxins ..."*

**The Journal of Alternative and Complementary Medicine**

*"I believe that everybody should be wearing a Q-Link, both practitioners and patients."*

**Dr. Robert Young**

**PhD, Dsc, Microbiologist**

*"I have conducted thousands of tests using the Bio Meridian FDA-registered MSA-21 stress assessment system in every industry and I have never seen anything like the Q-Link results. Whether the Q-Link was worn for 2 minutes or 2 days, every subject exhibited a dramatic increase in measurable energy, a strengthened resistance to the effects of stress, & a shift to their ideal performance state."*

## The Premier Strengthening & Rebalancing Tool for Optimal Living, Performance and Quality of Life.

- Doctors who tested the Q-Link found that it instantaneously amplified healthy energy states, and decreased energy drains caused by a wide variety of stressors.
- In brainwave studies (EEG), the Q-Link reduced the harmful effects of EMF's - the invisible fields that surround all electrical devices including computers, cell phones, fluorescent lights and other devices.
- World class athletes report that Q-Link improves their mental focus and endurance, giving them a significant competitive edge.
- In live blood studies, the Q-Link led to greater cellular integrity and more efficient blood oxygenation.
