

## MicroH2O - Q AND A

**Q What is MicroH2O?**

**A** It is molecularly restructured water that provides hundreds the times the benefits of usual water.

**Q Is this type of water safe for everyone?**

**A** Yes - It is safe for people and pets of all ages.

**Q Can I add MicroH2O Concentrate to any type of water?**

**A** Yes - MicroH2O Concentrate will restructure the molecule clusters of any water.

**Q Can I drink too much MicroH2O water?**

**A** No - Most adults need 6-8 glasses of water per day under usual activity.

**Q Can I drink MicroH2O with my nutritional supplements?**

**A** Absolutely Yes! - MicroH2O will more completely breakdown nutrients in your digestive system as well as carry them into your body. The nature of the smaller molecular clusters tremendously increases the bio-availability of the nutrients to the cells of the body.

**Q I don't like to drink water, can I still use MicroH2O?**

**A** Yes - You can add the diluted **MicroH2O** to the water you use to make juice from concentrates, protein shakes, greens drinks, vegetable juices, etc.

**Q How long should I use MicroH2O Concentrate?**

**A** You can use it forever! The continued gentle detoxifying effect, superior and inexpensive anti-oxidant value, increased nutrient absorption, etc., should be a daily routine for life.

**Q What does it cost?**

**A** The MicroH2O Concentrate costs about eleven cents per serving. It is about 80% less than the cost of bottled water!

**Q What benefits should I expect from using MicroH2O regularly?**

**A**

- accelerated hydration
- increased oxygenation
- enhanced nutrient absorption
- gentle detoxification
- reduced fatigue
- increased energy
- sharper thinking
- clearer, smoother skin

**Q Who can benefit from using MicroH2O Concentrate?**

**A** Everyone from children to golden age adults! In fact, the older we become, the more we need detoxification, hydration, and anti-oxidants to maintain good health!

**Q Does MicroH2O Concentrate change the taste of water?**

**A** No - There is a significant change in the texture though. The re-structured water is delightfully smooth and silky to the palate.

**Q Is MicroH2O Concentrate easy to use?**

**A** Yes - Simply add 1oz/2 tablespoons to 1 gallon of clean drinking water of your choice.

**Water is the elixir of all life! Drink to your health!**
