

VITALIZER PLUS WATER SYSTEM

This simple and elegant machine OXYGENATES and MICROCLUSTERS your drinking water.

Vitalizer Plus scientifically applies the principles of nature to create water with special life-enhancing properties, without the use of chemicals. Using the principles of physical and electromagnetic energy, Vitalizer Plus creates a living, dynamic water that improves the body's functioning.

HOW THIS AMAZING SYSTEM WORKS

1. STRONGER MAGNETICS

The Vitalizer water system uses two powerful magnets—3,500 gauss and 5,500 gauss—arranged in contrast to each other. The magnetic field restructures the water molecules to the more natural hexagonal shape found in nature. Science has shown that hexagonal water holds and communicates information many times that of most municipal or bottled waters. This helps bring a natural balance to body functions.

2. SUPER SATURATION OF DISSOLVED OXYGEN IN THE WATER

Vitalized water can take on up to 30% more oxygen than the normal saturation point for water.

3. RESTRUCTURING MATERIALS

Natural minerals in the mineral Super Cube are activated in ionic form to restructure and create a significant increase in the hexagonal molecules found in the water. This creates some of the most efficient water possible. Why spend hundreds of dollars on fancy waters each month when you can make your own?

4. POWERFUL FAR-INFRARED CERAMICS

These activate the movement of water molecules, lowering surface tension and increasing density. The result is a more energetically live water with superior hydration properties.

5. SMALL, TIGHT MICROCLUSTERS

The size of the water's molecular clusters becomes smaller, which means the water is much more easily absorbed by every organ and cell in the body.
