

### **Water of Life Ingredients**

Antimony, Barium, Beryllium, Bismuth, Bromide, Calcium, Cerium, Cesium, Chromium, Cobalt, Copper, Dysprosium, Erbium, Europium, Gadolinium, Gallium, Gold, Hafnium, Holmium, Iodine, Iron, Lanthanum, Lutetium, Magnesium, Manganese, Molybdenum, Neodymium, Nickel, Niobium, Nitrogen, Phosphorus, Praseodymium, Rhenium, Rubidium, Samarium, Scandium, Selenium, Silicon, Silver, Strontium, Tantalum, Tellurium, Terbium, Thallium, Thorium, Thulium, Tin, Titanium, Tungsten, Uranium, Vanadium, Ytterbium, Yttrium, Zinc, Zirconium

#### ***Plus trace amounts of other elements found in seawater:***

Aluminum, Arsenic, Boron, Cadmium, Carbonate, Chloride, Fluoride, Germanium, Indium, Iodide, Lead, Lithium, Mercury, Palladium, Platinum, Potassium, Sodium, Sulfate

#### ***The Nobel Gasses: These elements have not been tested for, but are believed to be present because they are normally present in seawater:***

Argon, Helium, Krypton, Neon, Radon, Xenon
