

## About

WelAide pads are uniquely crafted heating pads capable of delivering penetrating heat up to three inches deep for optimal relaxation and relief.

Every pad incorporates high quality natural jade stones to help optimize the therapeutic results from the heat.

When jade stones are heated, they emit long wave far infrared energy which is able to penetrate the body up to three inches deep. This allows the heat from WelAide pads to penetrate deep below the skin's surface for a more uniform heating instead of just surface deep.

## Benefits

WelAide heating pads utilize natural negative ions and far infrared from jade stones. This allows WelAide's pads to be more effective than traditional heating pads by providing the following benefits:

- Helping to relieve pain
- Improving blood circulation
- Reducing tension and stress
- Deeper heat penetration

Furthermore, negative ions have been known to help provide a sense of ease and calmness while also promoting general health and wellness.

Typically, negative ions are found in abundance by waterfalls and mountains, which may help explain the sense of tranquility people often feel in nature.

## Features

- ▶ Fast heating so that within a few minutes, heat is evenly dispersed throughout the pad to quickly provide relief.
- ▶ WelAide pads were designed with health in mind, as such the pads utilize an extremely low Electromagnetic Fields (EMF) design by using direct current (DC) instead of alternating current (AC). Other heating pads use AC and inherently emit high levels of EMF.
- ▶ Remote control includes on/off digital timer with auto shutoff.
- ▶ Made from high quality polyurethane with 100% natural jade stones.
- ▶ Extra long power cable (12ft/4m) to provide access to most outlets nearby.

Need a bigger heating pad? We offer various sizes for different applications from extra small to large..

## Specifications

### Extra Small

Dimensions: 10" x 8" (25cm\*20cm)  
Jade Area: 7.5" x 4.5" (19cm\*11cm)  
Power: 34 Watts  
Weight: 1.1lbs (0.5kg)  
# of Jade Stones: 15 (1.2"/ 3cm)

### Small

Dimensions: 20" x 14" (51cm\*36cm)  
Jade Area: 15" x 9" (38cm\*23cm)  
Power: 45 Watts  
Weight: 2.6lbs (1.2kg)  
# of Jade Stones: 60 (1.2"/ 3cm)

### Medium

Dimensions: 30" x 21" (76cm\*53cm)  
Jade Area: 19.75" x 14" (50cm\*36cm)  
Power: 90 Watts  
Weight: 4.2lbs (1.9kg)  
# of Jade Stones: 90 (1.2"/ 3cm)

### Large

Dimensions: 50" x 24" (127cm\*61cm)  
Jade Area: 40" x 17" (102cm\*43cm)  
Power: 110 Watts  
Weight: 7.9lbs (3.6kg)  
# of Jade Stones: 286 (1.2"/ 3cm)

Operating Temperatures:  
40-65°C (104-140°F)

WelAide Small Heating Pad

WelAide heating pads utilize far infrared from natural jade stones to help provide temporary relief of minor muscle/joint pain and stiffness.

WelAide heating pads are more effective than traditional heating pads by utilizing jade's inherent far infrared waves to deliver deep penetrating heat that helps increase local circulation and reduce pain.

## Far Infrared Heating Pads

Premium heating pads enhanced by far infrared from natural jade stones provide deep penetrating heat for temporary relief of minor muscle/joint pain and stiffness.

Other common uses are for providing temporary pain relief from joint pain, muscle spasms, minor sprains, strains, and back pain through the relaxation of the muscles and temporarily increasing circulation.
